Document Information

Product name: Semaglutide

CAS number: 910463-68-2

Molecular formula: C187H291N45O59

Molecular weight: 4113.58 g/mol

Form: Lyophilized powder

Intended use: Laboratory research and manufacturing use only

Document language: English

File format: PDF

SDS revision date: [Month DD, YYYY]

What Is Included in the Semaglutide SDS?

The Semaglutide Safety Data Sheet contains information covering:

- Product and supplier identification
- Hazard identification and precautionary information
- Composition and chemical identity
- First-aid measures
- Fire-fighting measures
- Accidental release and spill procedures
- Safe handling and storage conditions
- Exposure controls and personal protective equipment
- Physical and chemical properties
- Stability and reactivity
- Toxicological information
- Disposal, transport and regulatory information
- Date of preparation or latest revision

Important Safety Notice

Read the complete and current SDS before handling this material. Use appropriate personal protective equipment and follow your facility's chemical hygiene, storage and waste-disposal procedures.

This document does not replace the applicable batch-specific Certificate of Analysis or product specification. Product identity, purity, storage conditions and analytical results should be confirmed using the documentation supplied with the applicable batch.

Semaglutide is supplied for research and manufacturing use only. It is not intended for human or veterinary use, personal consumption, diagnosis or treatment.
