

Tirzepatide Safety Data Sheet (SDS)

Access safety, handling and storage information for Tirzepatide research peptide, CAS No. 2023788-19-2.

The Tirzepatide Safety Data Sheet provides product identification, recommended laboratory handling practices, storage guidance, personal protective equipment information, accidental release measures and disposal considerations.

Product Information

Product Name: Tirzepatide

Synonyms: LY3298176; GLP-1/GIP dual receptor agonist

CAS Number: 2023788-19-2

Molecular Formula: C225H348N48O68

Molecular Weight: 4813.45 g/mol

Physical Form: Lyophilized powder

Product Grade: Research grade

Intended Use: Laboratory research and manufacturing use only

Recommended Handling

Handle Tirzepatide in accordance with your institution's chemical hygiene plan and applicable laboratory procedures.

Use appropriate personal protective equipment, including a laboratory coat, suitable protective gloves and safety glasses.

Avoid generating or inhaling dust. Avoid contact with eyes, skin and clothing. Use appropriate engineering controls and maintain good laboratory hygiene.

Storage Information

Store according to the conditions specified in the applicable batch Certificate of Analysis and Safety Data Sheet.

Unless otherwise stated in the batch documentation, keep the product tightly closed, protected from light and stored at 2–8° C.

Important Notice

This product is supplied for qualified laboratory research and manufacturing use only. It is not intended for human or veterinary consumption, self-administration, diagnostic use or therapeutic use.

Safety information may vary according to product form, concentration, formulation, manufacturing process, batch and destination-country requirements. Always refer to the current product-specific and batch-specific documentation.

Frequently Asked Questions

What does Tirzepatide SDS mean?

Tirzepatide SDS means the Safety Data Sheet for Tirzepatide. It provides information intended to support safe workplace handling, storage, personal protection, emergency response and disposal.

What is the CAS number for Tirzepatide?

The CAS number for Tirzepatide is 2023788-19-2.

Where can I obtain the latest Tirzepatide SDS?

Use the download button on this page or contact our team to request the most current product-specific or batch-specific version.

Is the Tirzepatide SDS the same as a Certificate of Analysis?

No. An SDS focuses on workplace safety, handling and hazard communication. A Certificate of Analysis provides batch-specific testing and quality results such as identity, purity and analytical specifications.

Is this product intended for human use?

No. The Tirzepatide product described on this website is supplied for qualified laboratory research and manufacturing use only and is not intended for human or veterinary use, diagnosis or treatment.
