

Cagrilintide Product Specification Sheet

This product specification sheet provides technical and quality information for Cagrilintide supplied for laboratory research applications.

Product Identification

Product Name: Cagrilintide
CAS Number: 1415456-99-3
Molecular Formula: C₁₉₄H₃₁₂N₅₄O₅₉S₂
Molecular Weight: 4409 g/mol
PubChem CID: 171397054
Form: Lyophilized Powder
Grade: Research Grade

Product Specifications

Purity: Refer to the current product specification and batch-specific COA
Appearance: Lyophilized powder
Packaging: Sealed research vial
Storage: Refer to the current product documentation
Availability: Subject to current inventory and production status

Quality & Analytical Documentation

Cagrilintide product specifications should be reviewed together with the applicable batch-specific Certificate of Analysis (COA), Safety Data Sheet (SDS), and other analytical documentation.

Actual analytical results may vary by production batch. Refer to the applicable Certificate of Analysis for batch-specific purity, identity and analytical results.

Packaging

Cagrilintide is supplied in sealed research vials. Available pack sizes and packaging configurations may vary according to order quantity and production batch.

Storage & Handling

Store and handle Cagrilintide according to the conditions specified in the applicable product specification, Safety Data Sheet and Certificate of Analysis.

Related Product

View the Cagrilintide product page for additional product information, packaging options and inquiries.

Research Use Notice

For laboratory research purposes only. Not for human or veterinary use, diagnosis or treatment.
