Download the Safety Data Sheet for HGH 191AA (Somatropin), Catalog No. SUN-P024.

HGH 191AA, also known as Somatropin or recombinant human growth hormone (rHGH), is supplied by Sunone for qualified laboratory research and manufacturing applications. This page provides access to product identification, safety, handling, storage, and technical documentation for HGH 191AA (Somatropin).

## HGH 191AA Product Identification

**Product Name:** HGH 191AA (Somatropin)

**Catalog No.:** SUN-P024

**CAS Number:** 12629-01-5

**Molecular Formula:** C990H1528N262O300S7

**Molecular Weight:** 22125.19 g/mol

**Protein Length:** 191 amino acid residues

**Form:** Lyophilized Powder

**Grade:** Research Grade

**Purity:** ≥99.7%

## Safety and Handling Information

Always review the current Safety Data Sheet and applicable batch-specific documentation before handling HGH 191AA (Somatropin).

Use appropriate personal protective equipment and follow established laboratory safety procedures and your facility's chemical hygiene plan. Storage conditions, handling requirements, formulation, and other batch-specific information should be verified against the applicable Certificate of Analysis (COA), Specification Sheet, and current SDS.

## Storage

Store according to the conditions specified in the applicable batch-specific Certificate of Analysis and Safety Data Sheet.

General product documentation indicates refrigerated storage at 2–8 °C. Always refer to the documentation supplied with the applicable batch for final storage and handling requirements.

## Batch-Specific Documentation

Product identity, purity, formulation, analytical results, biological activity, storage requirements, and release specifications may vary according to the supplied batch or product configuration.

For batch-specific technical documentation, provide the product name, catalog number, and applicable lot number when contacting the Sunone technical documentation team.
