

HGH 191AA (Somatropin) Safety Data Sheet (SDS)

Download the HGH 191AA (Somatropin) Safety Data Sheet

Access safety and handling information for HGH 191AA (Somatropin), also known as recombinant human growth hormone (rHGH), supplied by Sunone for qualified laboratory research and manufacturing use.

The Safety Data Sheet (SDS) provides product identification, handling and storage guidance, exposure controls, personal protective equipment information, accidental release measures, and other laboratory safety information.

Product Identification

Product Name: HGH 191AA (Somatropin)

Catalog No.: SUN-P024

CAS Number: 12629-01-5

Molecular Formula: C990H1528N262O300S7

Molecular Weight: 22125.19 g/mol

Form: Lyophilized Powder

Grade: Research Grade

Purity: $\geq 99.7\%$

Safety and Handling

Always review the current Safety Data Sheet and batch-specific documentation before handling HGH 191AA. Use appropriate personal protective equipment and follow applicable laboratory safety procedures and your facility's chemical hygiene plan.

Storage conditions and handling requirements should be verified against the applicable batch-specific COA and SDS.

Batch-Specific Documentation

Product specifications, purity, formulation, analytical results and storage requirements may vary according to the supplied batch or configuration. Refer to the applicable Certificate of Analysis (COA), specification sheet and current SDS for batch-specific information.

For the most recent or batch-specific documentation, contact our technical documentation team and provide the product name, catalog number and lot number.
