

NAD⁺ Safety Data Sheet (SDS)

Download the Safety Data Sheet for NAD⁺ (Nicotinamide Adenine Dinucleotide), supplied for qualified laboratory research and manufacturing applications.

Product Identification

Product name: NAD⁺
Chemical name: Nicotinamide Adenine Dinucleotide
CAS number: 53-84-9
Molecular formula: C₂₁H₂₇N₇O₁₄P₂
Molecular weight: 663.4 g/mol
Catalog number: SUN-P056
Grade: Research Grade

About the NAD⁺ SDS

The NAD⁺ Safety Data Sheet provides information relating to product identification, safe handling, storage, exposure controls, personal protective equipment, accidental release measures, stability and other relevant safety considerations.

Users should review the complete SDS before receiving, handling, storing or disposing of this material. Laboratory personnel should also follow their institution's chemical hygiene plan, risk assessment procedures and applicable local regulations.

Important Document Notice

Product characteristics and safety information may vary according to the exact material form, salt form, hydration state, manufacturing specification and batch supplied. Always verify the product name, catalog number, CAS number, revision date and supplier information shown in the SDS against the product received.

The batch-specific Certificate of Analysis should be reviewed separately for identity, purity and analytical results.

Research Use Only

This product is supplied for qualified laboratory research and manufacturing use only. It is not

intended for human consumption, veterinary use, diagnostic use, clinical use or therapeutic applications.

Need Additional Documentation?

For a batch-specific Certificate of Analysis, specification sheet or additional technical documentation, please contact Sunone and provide the product name, catalog number and batch number.
