

Tesamorelin Safety Data Sheet (SDS)

Access safety, handling and product identification information for Tesamorelin intended for laboratory research applications.

Product Identification

Product Name: Tesamorelin

Synonyms: TH9507, TH-9507

CAS Number: 218949-48-5

Molecular Formula: C₂₂H₃₆N₇O₆S

Molecular Weight: 5135.9 g/mol

Form: Lyophilized Powder

Grade: Research Grade

Safety and Handling

Review the current Safety Data Sheet before handling Tesamorelin. Follow appropriate laboratory procedures and use suitable personal protective equipment in accordance with your facility's chemical hygiene and safety requirements.

Storage

Store and handle Tesamorelin according to the conditions specified in the current product SDS, Certificate of Analysis (COA), and applicable product documentation.
